About me

Mobile Developer dedicated to taking on new opportunities and challenges. I am excited to apply my knowledge in front-end and back-end development to contribute to innovative projects that address real-world problems. With a strong commitment to continuous professional and personal growth, I am enthusiastic about advancing my career.

Experience

Extramus

Mobile developer

Terranova da Sibari, Italy

02/2024 - Present

Mobile Developer specializing in Dart and Flutter, where I take full responsibility for the coding and development stages of our projects. I actively participate in calls and meetings, providing guidance to the team throughout the development process using Git for version control. In addition to my development role, I also serve as a beta tester for a website of the company, ensuring quality and functionality before release.

Education

Ilerna

Associate's Degree

Lleida, Spain

02/2022 - 02/2024

I studied application development for two years, focusing on programming in Java and Python, as well as SQL and database management. I also gained experience with ERP/CRM systems and mobile application development, particularly for Android Studio, using Kotlin and Java to create functional applications.

Courses

PildorasInformaticas

Python Tutored

Remote

03/2023

Advanced Python course with lessons about data management with SQL and Excel (using pandas), front-end development, machine learning with TensorFlow and creation of desktop applications.

Mastermind

Learn to programme with Python

Remote

06/2022

Basic concepts of programming in Python and creation of applications and games for terminal.
